

# 'Your preferred Ranunculus grower'

#### Ranunculus from our own greenhouse

We grow our Ranunculus from tissue culture in our greenhouses. All our planting material is virus tested. We grow Butterfly™ and Romance™ type in coöporation with Aya Engei. With many years of growing experience we can deliver top quality bulbs. With this experience we have created our own Ranunculus growing protocol, available to all customers of Green Works.

## **Growing information and promotion**

Do you want to know what is the best way to grow our Ranunculus? We have a growing protocol available with relevant information for growing Ranunculus Butterfly™ and Romance™. We enclose this growing information with our offers. For our customers we have professional photography available. Feel free to contact us to discuss all the possibilities.

### Visit our Ranunculus greenhouses

Our beautiful Ranunculus will bloom between January and April. Which makes for a truly beautiful and colorful sight. In those months we would love to welcome you to our greenhouses. If you want to see it with you own eyes, please contact us and make an appointment to come and visit us in the Westland. We can promise you that you will not be dissapointed during your visit.

### Ranunculus Quality Seal

When you receive Ranunculus from Green Works, they get our Ranunculus Quality Seal. This means that our Ranunculus meet a couple of requirements. Our bulbs are from young and healthy tissue culture material, they have been sustainable grown, are guaranteed true to name, good size bulbs, and our Ranunculus are MPS-A+ certified.

### The Green Works Ranunculus Truck

We can't make the Dutch roads faster, but we can make them more beautiful

# Ranunculus

# Butterfly™

- Young and healthy plant material
- Dutch and sustainable grown
